Sen L. Yourdon Wants Divorce Because His Wife Won't Come To Utah to Live.

Pollowing close on the dismissal of her suit for divorce in the district court on Tuesday, Della Clays today filed another action against M. V. Clays in which she asks for separate maintenance. Mrs. Clays alleges that they were married in this city on Nov, 122, 1902, and for a long time past her husband has deserted her and failed to support her although he owns property valued at \$10,000 and has an income amounting to about \$250 per month derived from a saloon business at Blackhorse, Nev., and from a pub-lic hall at Bingham. Defendant is al-leged to own considerable mining pro-

Two-Cent Fare.

Action of Legislatures for

The Courts Will Have to Decide "What | Wild Flight of Engine and Remarkable A Just and Reasonable Rate Really Is."

Chicago, March 21 .- A dispatch to the Record-Herald from Washington

In retaliation for the action of the state legislatures in providing for two cent fare and the public agitation against them, the railroads of the west have served notice on the interstate commerce commission of an increase of freight rates on grain and coal. This was the result in a test of the constitutionality of the rate law. The railways will endeavor to show that they are now unable to carry these commodities unless it be at rates that have been in effect for the last two years and that an increase is necessary.

NOTICE SERVED.

Notice has been sent to the com-mission by all the trunk lines out of Chicago that the rate on grain from Chicago to New York will be increas-ed after April 1, from 1714 cents a hundred pounds to 1914 cents. Coal-mine operators and shippers in Illimine operators and shippers in Illi-nois have been before the commission for two days protesting against a pro-posed increase in the rate on coal, and the same is true on iron.

DIFFICULT TO BORROW MONEY.

One of the causes assigned by the railroads for the increase is that they find it difficult, on account of the public agitation against them to borrow money with which to make betterments and that they can get this money only at high rates; added cost of money, together with the increased cost of labor and material, and general increase of operating expenses leave at increase of operating expenses leave nothing to be done but increase freight rates. In the representations so made nothing to be done but increase freight rates. In the representations so made to the commission not a single railroad has taken into consideration its revenues because the cutting off of rebates and free transportation, the most important item, according to the railroad presidents who appeared before the interstate commerce committee of the senate and house.

HARRIMAN'S VERSION

sideration of other names was not taken up, as the house reported the appropriation bill, and the senators went into action on house amendments.

Prior to the discussion on the land board appointments, the table of the senate was cleared at one fell sweep by a motion from Lawrence to take out the enacting clause of all remaining bills. This does away with Sunday closing, local option, insurance, fire and police, road bills, and several other measures.

HARRIMAN'S VERSION.

E. H. Harriman, during his recent visit to Washington, in explaining the increased cost of borrowing money, said it was due entirely to the public agitation against the railroads, which had so frightened the money lenders that they demanded from 25 to 30 per cent, more than ever before.

The determination of the railroads to increase the rates along the line has been apparent to the interstate commerce commission for several weeks, With the increase the test of the validity of the new rate law will then come. The courts will have to decide "what a just and reasonable rate is." what a just and reasonable rate is." Members believe that any decision made lowering the rate fixed by the railroads will be taken to the courts already with he taken to the courts to test the constitutionality of the act. Already the commission is planning to get quick action by the supreme court should the railroads desire to test the law. The department of justice will ask that a decision be had at the very earliest moment.

The principal changes in the appropriation bill as recommended by the joint committee, include the reduction of the amount appropriated to the agricultural college to \$99,000, and that of the university to \$240,000, the segregation of which latter amount to different departments, as proposed by the house, being killed and the amount appropriated to the big school being given in a lump sum.

The committee also recommended the allowance of \$10,000 for a state sheep inspector to carry out the orders of the board of sheep commissioners, and \$15,000 for carrying out the provisions of the new juvenile court law: that the amount originally proposed by the senate for the support of the National Guard, be allowed, namely, \$42,000; the road appropriations to the several counties was reduced to \$1,000 except in the cases of Garfield and Millard counties, which were made \$1,500; a bunch of witness and juror claims amounting to \$554 was disallowed. The Savage special over the Union Pacific is reported ahead of schedule time, so that it ought to reach Denver at 5:30 this evening. The train made Ogden in 46 minutes last night, and reached Green River at 5:45 a.m.

The Rio Grande is carrying a very heavy westbound passenger traffic. No. 5 passed through this morning, in four sections, and No. 1 in three sections; seven heavy trains. Last night's No. 2, that was laid out by the slight wreck down the line, arrived in this city at 11 or today.

SEELEY DINNER.

Senator From Mt. Pleasant is Remembered by "Press Gang" With Token, Last night at the Vienna Cafe the

newspaper men of the senate were guests of Senator John Seely of Mt. Pleasant at a dinner that turned out to be a banquet. Senator Seely was caught early in the session urging an appropriation for bounty claims, and the press representatives discovered a personal interest in an item for \$6.50, due for four coyote hides presented over two years ago by Seely. He niedzed due for four coyote hides presented over two years ago by Seely. He pledged to spend the money in a dinner to the press, when the money was allowed, and with the combined boosting of the third house and the senate the item stayed in the appropriation bill. The \$6.50 was used up last night with compound interest, and Senator Seely was ordered back to the mountains to make up the deficit and the price of another dinner in more coyote skins. This morning the "press gang" as he styled the writers, surrounded him at his desk and presented him with a goiden calf, mounted as a tie pln, in recognition of his amendment regarding the branding of stray calves on the Sabbath, and of his good services in creating pleasantries for the press during the session.

SALT LAKE'S POPULATION.

Washington Census Bureau is Away Off on Its Figures.

A Washington disputch quotes the cen sus bureau as stating the population of Salt Lake at 61,702, but where the bureau secured the data on which to base its estimate is uncertain. When the matter was mentioned to Manager Cooper of the R. L. Polk Directory company today, he isuarhed at the figuring of the census bu, read, and remarked his belief that none of the computers had ever been west of Pennsylvania, and knew practically nothing of conditions obtaining in the west. Mr. Cooper has for years supervised the gathering of names in this city for directory purposes, and speaks from reliable information in stating that within the corporate limits of Sali Lake City are from 75.000 to 80.000 people. If to this is

ndded 35,000 or 15,000 more for the suburbs, there is a grand total of \$5,000 to \$5,000 people. This does not look very much like the "estimate" of the census bureau at Washington. If the rest of the estimating done at the bureau is of the same order or reliability, its tabulation of the population of the country is likely to shoot very widely of the mark.
